 Moncalieri, Turin, Italy

## ABOUT ME

During my years at the Politecnico di Torino I was able to combine both engineering and creative skills. I had the opportunity to participate in over five projects, in which I explored multiple roles such as producer, project coordinator, and programmer. This had been important to test how to work in a team, manage time better, make a budget plan and how to make a good pitch. I am an organised, precise and goal-oriented person, and I always give my best. My goal is to work in the video game industry as a producer or project manager, where I can apply my skills to contribute to the development of innovative and impactful projects.

## SKILLS

- Blender, Unity, Unreal Engine
- Notion, Jira
- Suite Microsoft, Suite Adobe

## TECHNICAL AND PROGRAMMING

- Java, Javascript (React), HTML
- C#, C
- SQL

## LANGUAGE
